

## **STATEMENT OF PURPOSE**

### **RS19338**

Once a charter petition has been accepted by a local school board or by the State Charter Commission, unless fraud can be proven there currently is no avenue to revoke a charter when said charter was granted based on false information. This legislation would allow the chartering entity to provide notice of defect when these circumstances exist.

### **FISCAL NOTE**

There is no fiscal impact to the General Fund or any level of local government.
